Summary of findings

Overall summary

Ash Lodge Care Home provides nursing and personal care to 70 adults. The service consists of two units over two floors. On the day of our inspection there were 65 people at the home.

We found the following examples of good practice:

Ash Lodge Care Home ensured current government guidelines in relation to COVID-19 were being followed by staff and visitors to reduce the risk of infection to people living at the home. This included comprehensive checks for visitors on arrival.

The infection control policy was up to date. We reviewed audits which reflected actions had been taken to maintain the standards within the home.

Staff were adhering to Personal Protective Equipment (PPE) guidelines and extra PPE locations had been set up near to the resident's room.

The five questions we ask about services and what we found

We always ask the following five questions of services.

Is the service safe?

Further information is in the detailed findings below.

Inspected but not rated

Ash Lodge Care Home with Nursing

Detailed findings

Background to this inspection

We carried out this inspection under Section 60 of the Health and Social Care Act 2008 as part of our regulatory functions. This inspection was planned to check whether the provider is meeting the legal requirements and regulations associated with the Health and Social Care Act 2008.

As part of CQC's response to the COVID-19 pandemic we are looking at how services manage infection control and visiting arrangements. This was a targeted inspection looking at the infection prevention and control measures the provider had in place. We also asked the provider about any staffing pressures the service was experiencing and whether this was having an impact on the service.

This inspection took place on Monday 28 January 2021 and was announced. We gave the service 24 hours' notice of the inspection.

Is the service safe?

Our findings

Staffing

- The provider told us they had measures in place to mitigate the risks associated with COVID-19 related staff pressures

How well are people protected by the prevention and control of infection?

- We were assured that the provider was preventing visitors from catching and spreading infections.
- We were assured that the provider was meeting shielding and social distancing rules.
- We were assured that the provider was admitting people safely to the service.
- We were assured that the provider was using PPE effectively and safely.
- We were assured that the provider was accessing testing for people using the service and staff.
- We were assured that the provider was promoting safety through the layout and hygiene practices of the premises.
- We were assured that the provider was making sure infection outbreaks can be effectively prevented or managed.
- We were assured that the provider's infection prevention and control policy was up to date.
- We were assured the provider was facilitating visits for people living in the home in accordance with the current guidance.

From 11 November 2021 registered persons must make sure all care home workers and other professionals visiting the service are fully vaccinated against COVID-19, unless they have an exemption or there is an emergency.

- The service was meeting the requirement to ensure non-exempt staff and visiting professionals were vaccinated against COVID-19.
